Creation of New Application Form

IMPORTANT NOTE! ×

1. Please save before navigating to the next section or when exiting the form.
2. Please ensure that you are added into the CRMS system to have continued access to this study, if you are not an Investigator listed at Section B2 of this Form.
3. Please do not paste tabular data (tables) or images in the textbox. If required, please submit them as Attachments in the relevant sections.
4. When a document has been amended to replace an existing document:
 - a. Please ensure that both the clean and tracked copies are uploaded.
 - b. A version number and date should be reflected within documents used for the purpose of this research. Where a version number and/ or date is included in the file name, do ensure that it is the same as that stated within the document.
 - c. Please remove the obsolete copies as only the latest version is required.

[Close](#)

- Click on '**Close**' button to proceed with the creation of form.
- Complete **Section A: Study Title, Section B: Submission IRB and Board, at least 1 Study Site and 1 Principal Investigator** to save draft.

* Study Role **Select study role**

Profile and Minimum Training

-

* Conflict of Interest **Indicate if there are any conflict of interest**

Yes No

Complete the following questions if there are conflict of interest

* Conflict of Interest

Yes No

B2.(a)(i) Conflict of Interest: Please tick all the applicable boxes.

- Financial interests (e.g. stocks, stock options or other ownership interests) in the assets or liabilities of any organization that may benefit from the research activity.
- Payments (e.g. salary, consultation fees, speaking fees, or honoraria) from any organisation that may benefit from the research activity.
- Intellectual property rights or proprietary interests (e.g. patents, copyrights and royalties from such rights) related to the research.
- Options or other compensation arrangements that could be affected by the outcome of the research.
- The sponsor company supporting this study offers incentives connected with research participant recruitment or completion of research study (e.g. finder's fee, recruitment bonuses etc) that will be paid to the research staff.
- Others, to specify (financial/non-financial conflict):

B2.(a)(ii) Please provide details of all of the above Conflict of Interest.

B2.(a)(iii) Please describe the plan to manage all the above Conflict of Interest. You may include the mechanism and processes in place to manage the Conflict of Interest (e.g., resignation of position, independent data analysis, data safety monitoring, blinded study, ad hoc review committee). You may also include if the Conflict of Interest will be disclosed to the participants (e.g. through the written Informed Consent Form, oral presentation etc.).

Minimum Training Requirement

B2. Study Site and Study Investigator

B2 (a) Please select the study sites and investigator:

Study Site List

Study Site	Location	Endorsement needed
* Singapore Eye Research Institute (SERI) ▼	▼	* Yes ▼

Investigator List

Designation	Department	Institution	Profile and Minimum Training
Consultant	Glaucoma	Singapore Eye Research Institute (SERI)	Complete

- After user is added to study team, a link to 'Details' will be provided to view user profile and their minimum training status.
- Do a mandatory check to find out if the user had completed the minimum training requirement to conduct the study, the status will be as follows:
 - ✓ Complete: The user had fulfilled the minimum training requirement.
 - ✓ Incomplete: The user had not completed the minimum training requirement to conduct the type of study (e.g. Clinical Trials, HBR, non-HBR, SBE). Therefore, the form cannot be submitted.

Study Funding - Grant

Application Form

*C1. (b) (i) Name of Grant Agency:

*C1. (b) (i) Others chosen, please specify Name of Grant Agency

*C1. (b) (ii) Grant Holder:

Provide the name of the Grant Holder

*C1. (b) (iii) Grant Amount Applied for: ⓘ

Specify Grant Amount, if amount is in other currency, please amend accordingly.

C1. (b) (iv) Has the grant been approved?

Yes

No

*C1 (b) (iv) Attachment

Upload the grant approval letter if grant had been approved

C1. (b) (v) Is the study's initiation dependent on grant approval?

Yes

No

*C1. (b) (v) (I) Please state alternate funding

State the alternate funding if study initiation is not dependent on grant approval

0 characters entered

C1. (b) (vi) Grant Reference Number

- If there are changes to Grant information after approval, please amend in CRMS module.

Study Funding - Pharmaceutical/ Industry Sponsored

Application Form

*C1. (c) (i) Name of Sponsor Company

Provide the name of the Sponsor Company

- Please provide Sponsor and Clinical Research Organisation (CRO) details in CRMS module.

*C1. (c) (ii) Is the sponsor offering any incentive connected with research participant recruitment or completion of research study (e.g. finder's fee, recruitment bonuses etc.) that will be paid to the research staff? ⓘ

- Yes
 No

*C1. (c) (iii) Will the sponsor be providing monitoring?

Indicate if sponsor would be providing monitoring

- Yes
 No

*C1. (c) (iv) Would the sponsor be responsible for the payment and compensation of injury or illness to research participants arising from participation in the study? ⓘ

- Yes
 No

*C2. Will the funding/sponsor cover all research-related costs e.g., drugs, devices, procedures, tests and visits?

- Yes
 No
 Not applicable - no research-related costs

***D1. Form Type: Please select the appropriate form for submission.**

Application Form

Exemption Application Form

***D1. (a) Please select the exemption application categories.**

Category S1 – Research in Established or Commonly Accepted Educational Settings

Category S2 – Research that Only Involves Educational Tests, Surveys, Interviews, or Observation of Public Behaviour

Category S3 – Research Involving Benign Behavioural Interventions

Category S4 – Secondary Research Using Biospecimens or Private Information.

Category S5 – Taste and Food Quality Evaluation and Consumer Acceptance Studies

Section A: Study Title

Section B: Submission ...

Section C: Study Fundi...

Section D: Study Type a...

Section E: Research M...

Section F: Exemption R...

- To submit studies for exemption, choose **‘Exemption Application Form’** in **Section D1** and select the exemption application categories.
- **Section E: Research Methodology & Section F: Exemption Review Criteria** will then appear for completion.

Exemption Category S1

- ❖ Research conducted in established or commonly accepted **educational settings** that involves **normal educational practices** that are not likely to adversely impact student's opportunity to learn required educational content or the assessment of educators who provide instruction.

Examples

- Research on regular and special education instructional strategies
- Research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

Exemption Category S2

- ❖ Research that only involves **educational tests, surveys, interviews, or observations of public behavior** that meets at least one of the following criteria:
 - a. Information obtained is recorded by investigator in such a manner that the identity of human subjects cannot readily be ascertained, directly or through identifiers to subjects;
 - b. Any disclosure of human subjects' responses outside the research would not reasonably place the subjects at risk of criminal or civil liability or be damaging to subjects' financial standing, employability, educational advancement or reputation; or
 - c. Information obtained is recorded by the investigator in such a manner that the identity of the human subjects can be readily be ascertained, directly or through identifiers linked to the subjects and there are adequate provisions to protect the privacy of subjects and maintain the confidentiality of data.

Example

- Interview consisting of audio-recording but does not record any identifying information about the information. (This example meets criteria a. above.)

Exemption Category S3

- ❖ **Research involving benign behavioural interventions** which are brief in duration, harmless, painless, not physically invasive, not likely to have a significant adverse lasting impact on the subjects, and the investigator has no reason to think the subjects will find the interventions offensive or embarrassing. **Research involving benign behavioral interventions in conjunction with the collection of information** from an adult subject through verbal or written responses (including data entry) or audiovisual recording if the subject prospectively agrees to the intervention and information collection and at least one of the following criteria is met:
 - a) The information obtained is recorded by the investigator in such a manner that the identity of the human subjects cannot readily be ascertained, directly or through identifiers linked to the subjects.
 - b) Any disclosure of the human subjects' responses outside the research would not reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing.

Examples

- Research required participants to play online game, solve puzzle under various noise conditions, or having them decide how to allocate a nominal amount of received cash between themselves and someone else.

Exemption Category S4

- ❖ Secondary research using identifiable biospecimens or private information, if
 - a. It uses publicly available identifiable biospecimens or private information; or
 - b. The information will be recorded by the investigator in such a way that the identity of the subjects cannot be readily ascertained, and the investigator will neither contact the subjects nor re-identify subjects.

Note: Secondary research is re-using information and/ or biospecimens that are collected for some other “primary” or “initial” study. This exemption is not applicable for Human Biomedical Research regulated under the HBRA

Examples

- A researcher who examine an existing publicly-available database.

Exemption Category S5

❖ Taste and food quality evaluation and consumer acceptance studies:

- a. If wholesome foods without additives are consumed, or
- b. If a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe.

Examples

- Participants were asked to taste a set of novel snacks to determine consumers' preferences. The set of novel snacks contain food ingredients found to be safe.

Amendment Form

*Describe the proposed change(s) to the research and include a rationale for each proposed change.

*Will the enrolled study participants be informed of these changes?

Yes

No

*Will the enrolled study participants be re-consented?

Yes

No

Do the proposed amendments:

Significantly change the original objectives, innovation and scientific methodology (e.g., re-design of study methodology, change in investigational product used, etc) and/or the alignment of the study to the institutions' research objectives, image and standards of the research study?

Require additional resources (e.g., expertise, manpower, time, budget) for the study to be properly conducted?

Significantly increase the overall risk or negatively alter the risk benefit ratio to the research participants ?

If any of the above is true, please elaborate

Section S: Consent Pro...

Guidance

This report form should be submitted once Principal Investigator is aware of the non-compliance/ study deviation according to the reviewing IRB's requirement. All sections must be completed. Principal Investigators are obliged to suspend their research immediately pending their report to the IRB if deviations are substantial or are likely to result in greater harm or greater likelihood of harm to the research participants.

Definitions

Study Deviation: is an unplanned excursion from the study that is not implemented or intended as a systematic change.

- A study deviation could be a limited prospective exception to the protocol (e.g. agreement between sponsor and investigator to enroll a single research participant who does not meet all inclusion/exclusion criteria). Like study amendments, deviations initiated by the investigator must be reviewed and approved by the IRB and the sponsor prior to implementation unless the change is necessary to eliminate an immediate hazard to the research.
- Study deviation is also used to refer to any other, unplanned, instance(s) of non-compliance with the protocol or failures on the part of the research participant(s) to complete the study.

Non-Compliance: is a failure by an investigator or any study team member to abide by the policies and procedures of the IRB or applicable regulations governing the protection of human subject research. Some examples of non-compliance include but are not limited to:

- Failure to obtain prior approval for research
- Failure to obtain informed consent when required
- Failure to use the latest IRB approved version of the protocol or consent form
- Failure to report an adverse event report according to IRB timeline and procedure
- Performance of research at an unapproved study site
- Performing an unapproved research procedure
- Failure to adhere to the approved protocol
- Failure to submit study amendments for review and approval

Study Deviation: An unplanned excursion from the study that is not implemented or intended as a systematic change.

Non-Compliance: Failure by an investigator or any study team member to abide by the policies and procedures of the IRB or applicable regulations governing the protection of human subject research.

Serious Adverse Event Report Form (SAE)

ROC/DR/IR Query that is Pending PI Reply

The screenshot displays a web application interface for managing a submission. At the top, there is a navigation bar with a back arrow and the text "Back to My Tasks" on the left, and "Submission Detail" in the center. On the right side of the navigation bar are icons for download, notifications, and a profile picture. Below the navigation bar, the submission ID "2024-3121-APP1" is shown, followed by a status box labeled "Pending Endorsement" and a refresh icon. Below this is the ECOS reference number "ECOS Ref: 2024-3121" with a document icon. The main content area is divided into two tabs: "Form Detail" (active) and "Endorsement". Under "Form Detail", there is a section for "Application Form" with a task instruction: "*A1. Please enter the Study Title". Below this is a box containing "CG01 (5 Apr 24) - Ready for review". A modal dialog titled "ECOS" is open in the center, displaying a confirmation question: "Are you sure to submit the following replies with the latest form?". Below the question, there is a checked checkbox for "National Neuroscience Institute" with a "1 Query" indicator. The query item is "General" and contains two items: "ABCDEF" and "GHIJKLM". At the bottom of the modal are "Cancel" and "Confirm" buttons. On the right side of the main content area, there are buttons for "Track Changes" and "Edit" (highlighted with a red box). A "Reply Query" button is also visible at the top right, highlighted with a green box. A green arrow points from a text box to the "Reply Query" button, and a red arrow points from the "Edit" button to another text box.
