# Clinical Research Management System (CRMS)

• New module developed as a research toolkit to help researchers record, track and manage their

respective clinical research projects and activities.

### **CRMS - Overview**

The use of CRMS module is <u>optional</u> except for these two sections.

There are 5 main functions of CRMS:

#### **Study Information**

- Sponsor, CRO contact details
- IRB review fees billing contact details
- Regulation information (e.g. submission details)

#### **Site Information**

- Primary & backup site coordinators
- Funding/ Grant details
- Study agreement information
- Sponsor/CRO contract
- Publications and presentations

# **User Authorisation List**

- Study team members/ Sponsors added can draft IRB form
- 3 types of roles can be assigned (each affecting their access in CRMS): Study Sponsor, Study Administrator and Study Team Member
- PI, Site-PI and Co-I will be auto-synced from IRB App Form

#### Milestones

 Project managers/Study coordinators can create & track Study Milestones (e.g. IRB approval, Study Initiation, First participant screened)

#### **Participants**

- Track recruitment numbers (by month and in total)
- Capture participants' information (e.g. Basic information, Signed ICF tracking, Visit plan)

Mandatory for Pharmaceutical/ Industry Sponsored study (as per Section C1 in the IRB application form)

Mandatory if other **non-investigator** study team members require **access to the IRB** documents and submissions

### **CRMS - Overview**

- CRMS module is a useful clinical research management tool at the site, study and institutional level when fully maximised.
- Study Information page must be completed for <a href="Pharmaceutical/">Pharmaceutical/</a> Industry Sponsored studies to facilitate submission of IRB Application Form.
- User Authorisation List (UAL) controls user access to CRMS, IRB and other future modules for Study
   Team Member (STM), Study Administrators (SA) and Study Sponsor (SS) roles.
- Site Information, Milestones and Participants Recruitment Numbers pages contain important data fields that can be used for study management, institution's trending and reporting purposes.

### **User Access**

- Different user roles will have different levels of access to CRMS.
- Once a user has been added in the <u>initial</u> IRB <u>Application</u> Form or CRMS User Authorisation List, the user will gain immediate access to a limited number of pages, i.e. limited access.
- The newly added users will then require IRB's approval or Pl's endorsement in CRMS to gain full access to CRMS.
  - **Exception**: Institutional Research Office administrators assigned with the CRMS role will have full access upon role assignment by the CRMS Module Admin (from NHG).
- PI will only be able to endorse newly added users after IRB has provided approval for the <u>initial</u> IRB <u>Application</u> Form.
- For new investigators (i.e. PI, Site-PI, Co-I) added in the IRB **Amendment** Forms, full CRMS access will be granted after IRB has provided approval. New investigators pending IRB approval will not have any access to the CRMS.

# **CRMS Sitemap**

- The UAL primarily functions to manage the access of **STM**, **SA** and **SS** to the CRMS and IRB modules in ECOS.
- This is one of the harmonised processes between CIRB and DSRB where non-investigators (study team members and administrators) will no longer require IRB's approval.
- Only the PI's endorsement in CRMS is required to grant full page access to the SA/STM/SS roles. Refer to Page 56 63 on Study Member Review for step-by-step guide to endorse SA/STM/SS.
- PI will only be able to endorse newly added users after IRB has provided approval for the initial IRB Application Form.
- Refer to Page 111 118 on step-by-step guide to add or deactivate users in the UAL.

Access to CRMS (limited) and IRB modules, after a STM/SA/SS has been added but pending PI endorsement, will allow the new user to immediately perform data entry, submission and reporting work.

Site Level

- PI/Site-PI, Co-I, Study Team Members (STM), Study Administrators (SA) and Study Sponsor (SS) roles will be listed here.
- Only user access to CRMS and IRB modules for STM, SA and SS roles can be managed here. User access for PI/Site-PI and Co-I will be managed via the IRB module.

# Mandatory Fields for <u>Pharmaceutical/ Industry-sponsored studies</u>

#### In-built Logic Checks – Before IRB APP Approval

#### • RECAP:

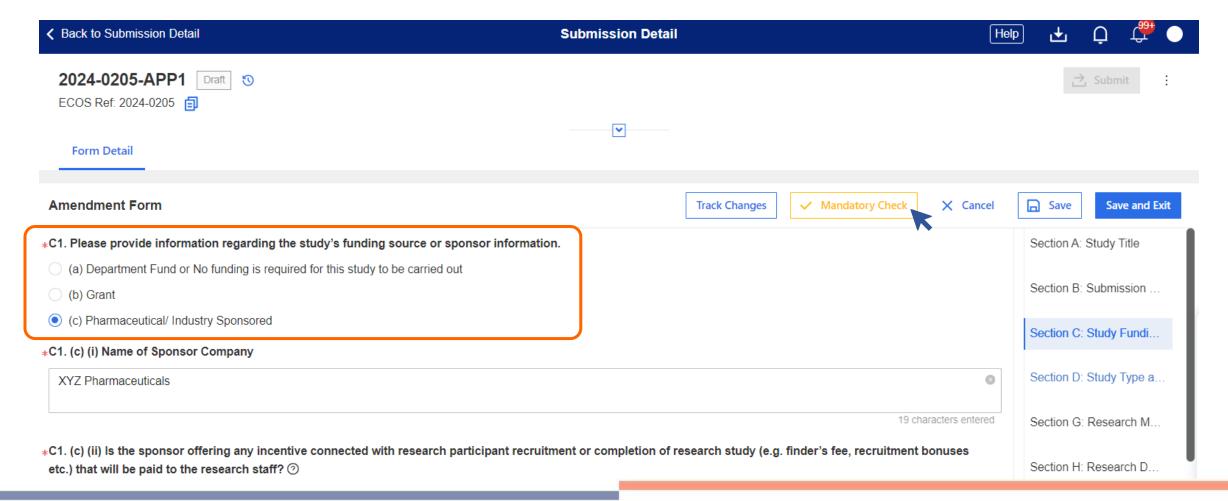

For <u>Pharmaceutical</u>/ <u>Industry-sponsored studies</u>, the following details must be provided for the IRB Application Form to be submitted successfully.

- a) Sponsor Details, or
- b) Clinical Research Organisation (CRO) Details, and
- c) IRB Review Billing Details.

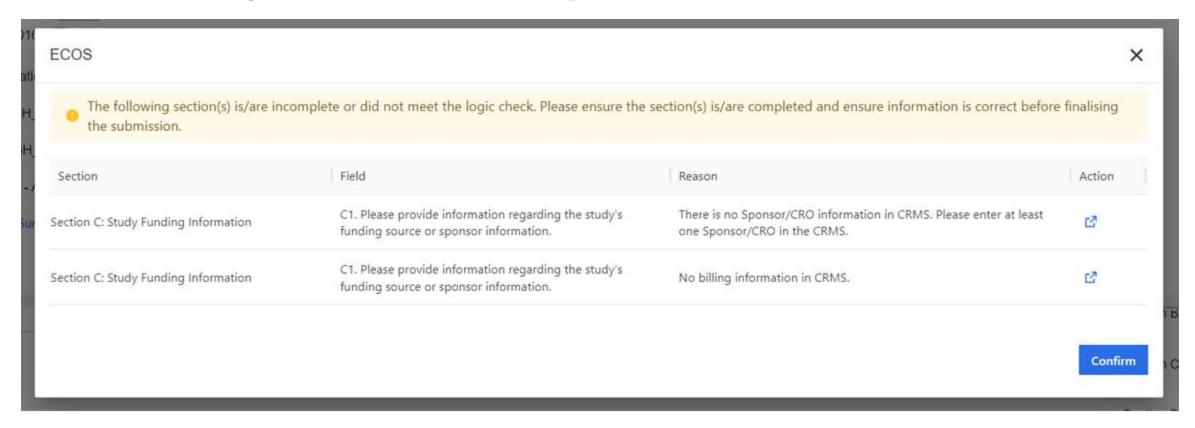

• The system will check and prevent the submission of IRB Application Form should the CRMS 'Study Information – Basic Information' page be incomplete.

#### IRB APP Form – Section C1

 Under Section C1 of the IRB Application Form, if the Pharmaceutical/ Industry Sponsored option was selected, upon clicking the Mandatory Check button, user will be prompted with a message (next slide).

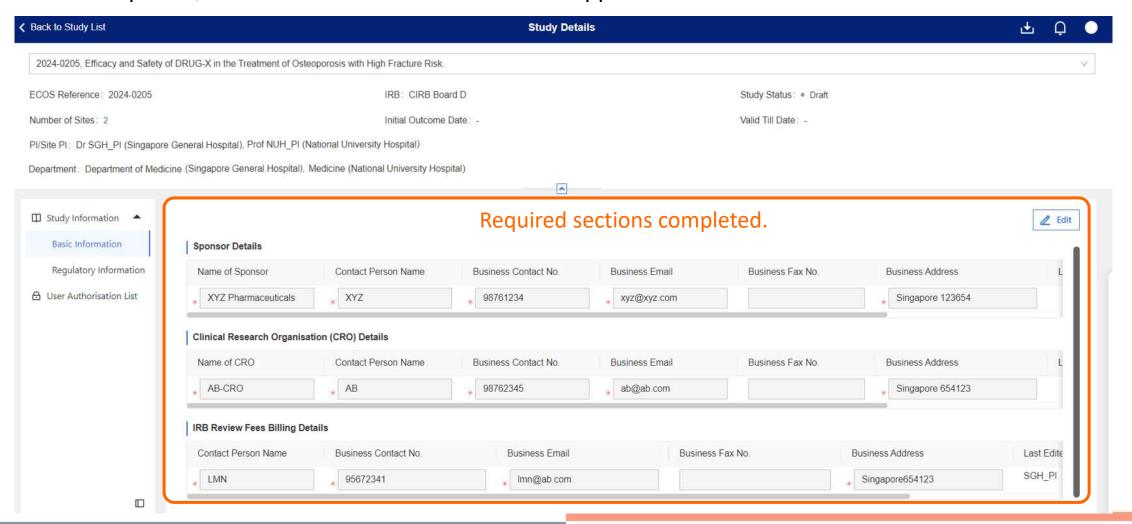

#### **Mandatory Check Prompt From IRB APP Form**

 User will need to go into CRMS > Study Information – Basic Information page to complete the necessary sections.

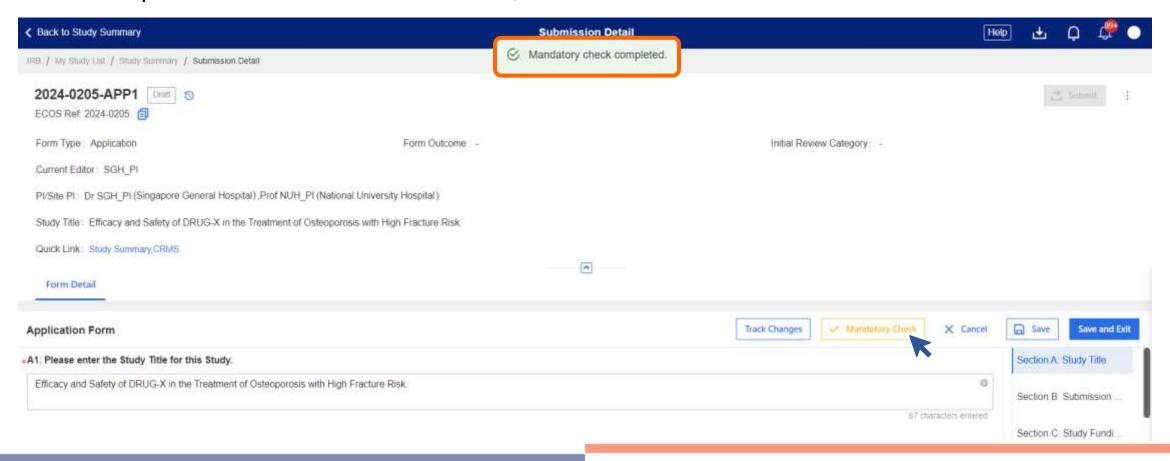

#### Complete Sponsor/CRO and IRB Details in CRMS

Once completed, user will need to return to the IRB Application Form to finalise it for PI's declaration.

#### In-built Logic Checks – After IRB APP Approval

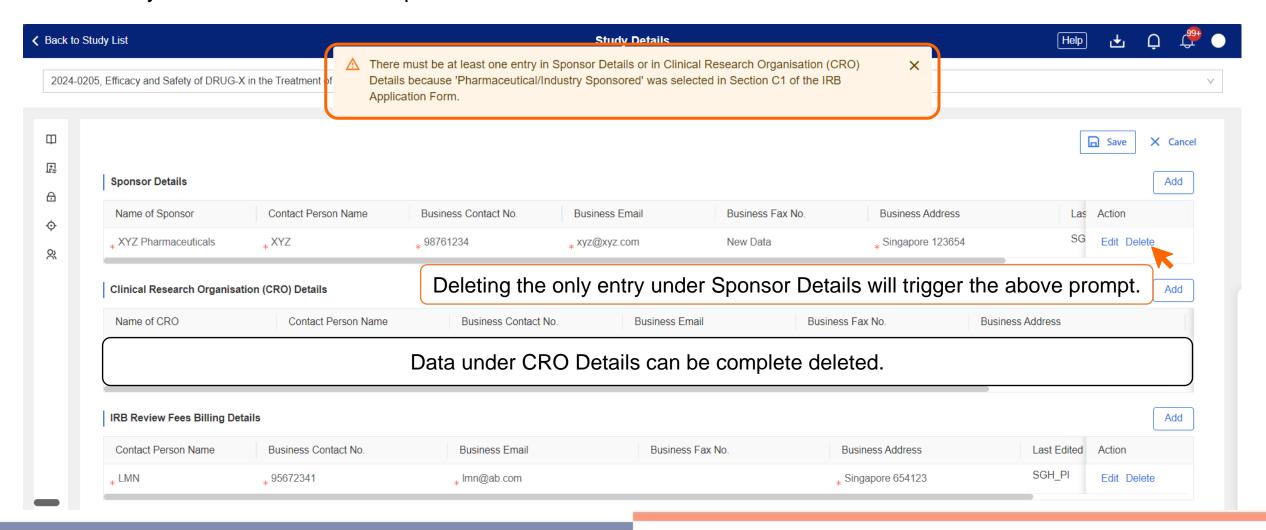

- After IRB has approved the Application Form, there will be a logic check to ensure the data in the following sections are present:
  - a) Either Sponsor Details or Clinical Research Organisation (CRO) Details; AND
  - b) IRB Review Billing Details
- The system will trigger prompts to stop the user if there is an attempt to delete the data.
- This does not affect studies funded by other sources.

#### At Least 1 Entry Must Be Retained

#### Applicable To Both Sponsor/CRO and IRB Details

The system will allow the complete deletion of 1 section but not both.

  User Authorisation List.
- For "Study Administrators" in current ROAM IRB application form, it will not be auto populated in CRMS. PI, Site-PI or Co-I will need to add Study Sponsor, Study Administrator and Study Team Members after study migration.

### **Summary**

- Study Information page must be completed for <a href="Pharmaceutical/">Pharmaceutical/</a> Industry Sponsored studies to facilitate submission of IRB Application Form.
- User Authorisation List (UAL) controls user access to CRMS and IRB modules for Study Team Member (STM), Study Administrators (SA) and Study Sponsor (SS) roles.
- For the migrated studies, the addition of SA/STM/SS users into CRMS UAL will need to be manually done by PI/Site-PI or CRMS RO administrators.
- PI/Site-PI should perform the endorsement in CRMS via the Study Member Review page (as needed).
- ! The User Authorisation List does not replace a delegation log.
- Site Information, Milestones and Participants Recruitment Numbers pages contain important data fields that can be extracted for institutions' trending and reporting purposes.
- In conclusion, the CRMS module has great potential to be a useful clinical research management tool at the site, study and institutional level when fully maximised. Research Office from all institutions should strongly encourage their researchers/clinicians to take full advantage of this module and update the pages frequently.
